PROFESSIONAL SUMMARY

I design and build data pipelines and ETL processes on cloud data platforms, translating complex business needs into scalable, production-ready solutions. I have hands-on experience in analytics, IT systems management, and Level 2 application support, ensuring data quality, reliability, and performance. With a background in manufacturing leadership and technical roles, I understand business processes end-to-end and excel at problem-solving, project execution, and delivering data-driven results. Certified in Data Engineering, IT, and Business Analysis, I'm passionate about bridging the gap between business and technology to deliver actionable, data-powered solutions.

KEY ACHIEVEMENTS

- Designed and implemented Databricks platform from the ground up in a manufacturing environment, enabling scalable data processing and analytics
 - Trained business users on Databricks and Delta Lake, increasing self-service analytics adoption across the organization
 - Designed and implemented CI/CD pipelines with Databricks Asset Bundles, enabling version control, automated testing, and streamlined deployment of data assets
-

TECHNICAL SKILLS

Programming: Python, SQL, PySpark

Data Engineering: ETL, Data Pipelines, Data Processing, Data Validation, Data Modeling

Databases: MySQL, Oracle, MSSQL

Tools: Linux, Docker, Git, Tableau, Databricks, Microsoft Azure

Concepts: Data Warehousing, Data Integration, Automation, System Monitoring, Delta Lake

PROFESSIONAL EXPERIENCE

Junior Business Analyst / Data Engineer

Mercedes-Benz Manufacturing Poland, Jawor

March 2024 – Present

- Designed and implemented Databricks platform in a manufacturing environment, establishing the foundation for scalable data processing, ETL pipelines, and advanced analytics
- Build and maintain ETL pipelines using PySpark on Databricks, integrating production data from multiple manufacturing systems
- Architect Delta Lake tables to enable ACID transactions, time travel, and efficient data processing for production data
- Conduct internal training sessions for business stakeholders on Databricks, Delta Lake, and Lakehouse concepts, empowering teams to leverage data independently
- Develop automated reports combining data from multiple production systems using Databricks, delivered via email to business users on a scheduled basis
- Integrate SharePoint with Databricks to securely store and share processed data with business teams, enabling self-service access to manufacturing insights
- Create automations for SFM Digital using Databricks, streamlining data workflows and reducing manual intervention
- Monitor data pipeline performance and data quality using Databricks Lakehouse Monitoring and Azure Monitor
- Collaborate with business stakeholders to translate requirements into technical specifications and scalable data solutions

- Design and implement CI/CD pipelines using Databricks Asset Bundles (DABs), enabling version-controlled, testable deployments across dev, test, and production environments
-

Production Team Leader

Mercedes-Benz Manufacturing Poland, Jawor

September 2020 – February 2024

- Implementing process improvements and managing resources effectively
 - Overseeing daily operations and ensuring optimal performance
-

Owner

EM Remonty, Swidnica

January 2018 – August 2020

- Managed all aspects of the business, including operations, marketing, and finance
 - Foster relationships with clients and partners to enhance business opportunities
-

Owner

Furniture MORI, Swidnica

September 2017 – December 2017

- Managed all aspects of the business, including operations, marketing, and finance
 - Foster relationships with clients and partners to enhance business opportunities
-

Technical System Operator

UPM Raflatac, Nowa Wies Wroclawska

November 2012 – August 2017

- Operated and maintained technical systems to ensure continuous production
- Troubleshoot and resolved technical issues promptly

- Collaborated with cross-functional teams to enhance system performance

EDUCATION

Wroclaw Academy of Business in Applied Sciences

October 2023 - Present

Computers Network Technology and Cybersecurity

LZDZ

September 2010 - June 2012

Pharmacy Technician

CERTIFICATIONS

Microsoft Certified: Azure Databricks Data Engineer Associate DP - 750

Microsoft

May 2026 - May 2027

Microsoft Certified: Azure Fundamentals AZ - 900

Microsoft

March 2026

Databricks Certified Data Engineer Associate

Databricks

January 2026 – January 2028

Google Data Analytics Professional Certificate

Coursera

May 2025

AgileBA® Foundation

APMG International

May 2024
